BUGGY ADVENTURE

Summer is a magical time on the Churchill River, as it comes to life with what feels like countless beluga whales. Watch in awe as these “canaries of the sea” migrate to the warm, shallow waters to give birth and feed on fish. Experience these majestic creatures from various vantage points, as you will have the opportunity to see them from a large tour boat and an intimate Zodiac where you can witness their playful behavior and curious spirit.

While on land, enjoy the seemingly endless view as the surrounding tundra landscape erupts into colourful summer blooms alongside the Hudson Bay. Experience a dog carting excursion with a professional musher through the colourful boreal forest and explore the Churchill Wildlife Management Area by Tundra Buggy in search of northern wildlife. You might even have the opportunity to see the first of the summer polar bears as they begin to return to from the sea ice throughout the summer months.
