

TUNDRA BUGGY® AUTUMN DAY TOURS

A Tundra Buggy autumn day tour is the best and safest way to view the majestic polar bear in its natural environment. With the most special permits to access the trail network in the Churchill Wildlife Management Area, explore the tundra while your knowledgeable driver provides interpretation about the magnificent wildlife and ecosystems in this subarctic environment.

You will have the opportunity to explore the open tundra while your driver discusses the effects of tides, currents and ice formation on the polar bear. Other wildlife you may spot includes arctic hare, fox, gyrfalcon, snowy owl and ptarmigan.

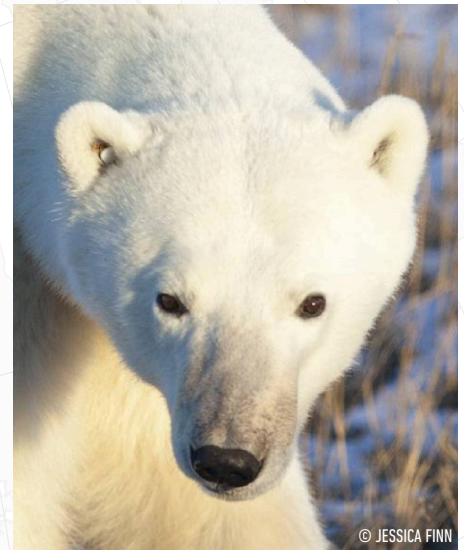

Please check-in at Fifty Eight North - Home of the Tundra Buggy by 7:45 a.m. for transfer to the Tundra Buggy launch area, where you will board a Tundra Buggy for a full-day excursion. A light meal and refreshments will be provided. You will be transferred back to Fifty Eight North at the end of the tour, around 5 p.m.
